about

I'm a sound designer and podcast producer based in Toronto, Canada. I currently work remotely as a Podcast Producer for Turncast where I direct a small team of audio engineers and collab with clients on recordings and publishing. I am also a trained music producer and sound designer. Besides all that, I love to run, play sudoku, and I can sometimes obsessively spend a full day organizing the apps on my home screen.

education

TORONTO METROPOLITAN UNIVERSITY

B.A. in Media Production
2013-2017 - Toronto, ON
